Your Highness

Prompted by humane concern, I am writing to beg you to use your power of pardon to end the imprisonment of Ahmed Mansoor.

Ahmed has been jailed for more than six years in inhuman conditions, alone and without a bed or running water, for “harming national prestige” and “publishing false information”, when in truth all that he has done is to speak out about human rights.

Now, with the forthcoming Climate Summit, that the eyes of the world will be on your country, it is surely time to start a new era of freedoms and tolerance. If you do so, you will win the world’s respect.

Yours sincerely
